

CUSTOM FABRICATION

LOADING DOCK SPECIALISTS

HIGH SPEED DOORS

LEADING THE INDUSTRY SINCE 1983

For more than 30 years, Best Equipment and Welding has been an industry leader in the manufacture of custom fabrication solutions and loading dock equipment, products and services.

Two powerful divisions that integrate perfectly to meet all of your needs...

from start to finish; **it's what sets us apart from the competition.**

In our state-of-the-art manufacturing facility in Indianapolis, we provide superior custom fabrication, welding and precision machining to an extensive client base that includes Fortune 500 companies, hospitals, schools and smaller entrepreneurial ventures, many of whom have been clients for 20+ years.

At Best Equipment and Welding, all jobs are completed to total client satisfaction by a team of highly skilled and certified fabricators, welders and engineers.

DOCK - LEVELING

CUSTOM FABRICATION

DOCK-LEVELING EQUIPMENT & SERVICE

From new construction to renovation, Best Equipment designs, installs and maintains loading dock equipment for warehouses and truck terminals of all sizes. Our superior-quality levelers, whether hydraulic, mechanical or pneumatic, come in a variety of sizes and capacities to meet any loading dock requirements – and are engineered to ensure a smooth, efficient loading process.

What's more, our custom-designed and manufactured dock seals come in a variety of styles, colors and fabrics tailored to your unique application and guaranteed to maximize appearance, style and employee comfort.

We also offer a wide selection of truck restraint systems designed to ensure safety and efficiency while loading or unloading trailers at the loading dock.

CUSTOM FABRICATION SOLUTIONS

At Best Equipment and Welding, we transform concepts into solutions, and we do it at a price that meets your budget. We call it “value engineering.” Whether you provide the design or we do, our skilled engineers will fabricate a solution to meet your specific production needs.

Best Equipment excels at projects of any scope and size
from prototype development to job-shop and large-scale production runs.

Our 20,000-square-foot fabrication facility features production manufacturing in carbon steel, aluminum and stainless steel. And we build everything in-house to our exacting specifications, including approach ramps, racks, material-handling carts, industrial and architectural stairways, mezzanines, ADA-compliant wheelchair ramps and railings, conveyor or crossover bridges, guarding systems, access ladders and personnel platforms. All of our products are manufactured for durability, and every finishing detail is provided on time and on budget!

YOUR SINGLE SOURCE FROM DESIGN TO SERVICE

Best Equipment and Welding is your single source for design, product, application, installation and service.

Whether we're erecting new structures, installing equipment or performing safety-critical jobs such as column replacement, our trained field installers are equipped with fully stocked, welder-equipped service trucks. That means we can complete any job on the spot. And should you need repairs or preventive maintenance, we make it a priority for next-day service.

At Best Equipment and Welding, we'll transform your ideas into superior-quality finished products at a price you can afford. Solving problems...adding value...it's what we do Best!
